

Hello Friends and Families,

Please accept this **BE READY TO LEARN** package from your friends at New Castle County and the Delaware Readiness Teams. This is provided to help your student remain engaged in learning and to equip them with some extra supplies to help them get through the winter. We hope you find the materials to be useful in preparing them for their next step in their educational journey.

We understand that this is a very difficult time for you and your family and that you have a lot on your mind, but if you have a child who is or will be turning 5 before August 2021, we want to encourage you to register your child for kindergarten as soon as possible. To learn more on how to register for kindergarten <https://www.delawarereadinessteam.com/register-for-kindergarten>.

Thank you for continuing to help your child with their educational needs and know that we support you!

Regards,

Matt Meyer

New Castle County Executive
